

First Announcement

Ibero-American Regional Climate Services Workshop

Observation Requirements for the Global Framework for Climate Services GFCS

SAVE THE DATE

3 - 6 May 2016

Santiago de Chile

- Review capacities and existing climate services of Ibero-American NMHSs and highlight added value from regional cooperation
- Identify missing climate services to support local to regional policy making
- Engage in sector-specific user-expert dialogue jointly with the Regional Climate Outlook Forum SSACOF
- Underscore fundamental role of climate observations for reliable climate services
